

The City invites your input on the following proposed Projects:

**Bicycle & Pedestrian Enhancement on Hatch Road
Eastgate Blvd Bike Connectivity**

The City will be seeking Active Transportation Program grant funds to improve existing bicycle and pedestrian facilities and provide better bike connectivity in the City. The grant goals are to provide safe, efficient and accessible paths for bicyclists/pedestrians and increase the number of active users.

We want to hear from you about the propose project and your input on how to increase active users (bicyclists, walking, transit, other) in our community. Your input is valuable and it will help us plan and implement improvements that supports community’s needs.

There are no right or wrong answers. Each question is optional. Your feedback is much appreciated.

A. General Questions

1. Do you live in the City of Ceres? Yes No
If NO, how often are you in Ceres (daily, weekly, monthly)? _____
2. Do you feel walking and bicycling is unsafe in the City? Yes No
If YES, why do you feel it is unsafe (high traffic, low lighting, high speeds, no bike or pedestrian paths, etc)? _____
3. Do you travel by walking or biking within the City to reach destination points such as the store, bank, school, transit, work etc? Yes No
If YES, on a weekly basis, how far do you travel (# of blocks, miles): _____
4. Do you walk/bike in the City for recreation? Yes No

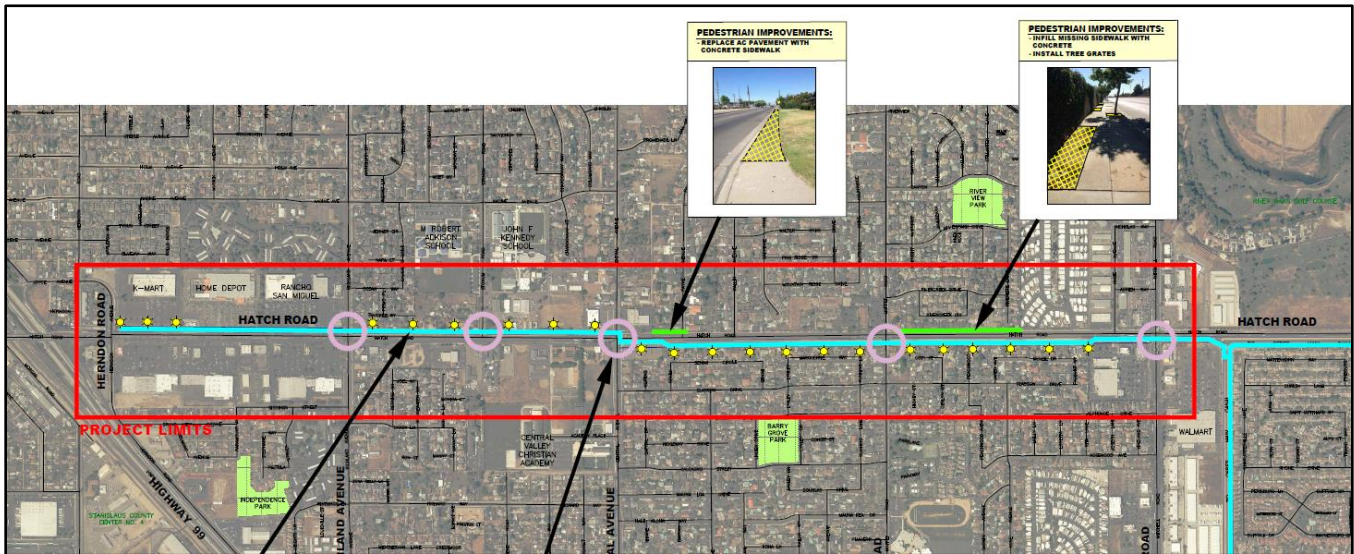

B. Area of Improvements

1. Are there locations in the City you would like sidewalks (or improvements)? Yes No
Write suggested locations here:

2. Are there locations in the City you would like bicycle lanes/path? Yes No
Write suggested locations here:

- C. The City is considering the below project to improve safety enhancements along the existing multi-use path and sidewalks on Hatch Road corridor. Improvements to be considered include adding solar powered safety lights, improving path crossing at intersections, install wayfinding signs and dog waste stations, infilling gaps along the pedestrian path with concrete.

Bicycle & Pedestrian Enhancement on Hatch Road (Herndon Road to Mitchell Road)

Do you or someone you know, travel by bike or walk along this corridor? Yes (see a.) No (see b.)

a. IF YES:

Are these improvements beneficial to you (or them)? Yes No

If NO, what improvements would you suggest to improve the bike and pedestrian path?

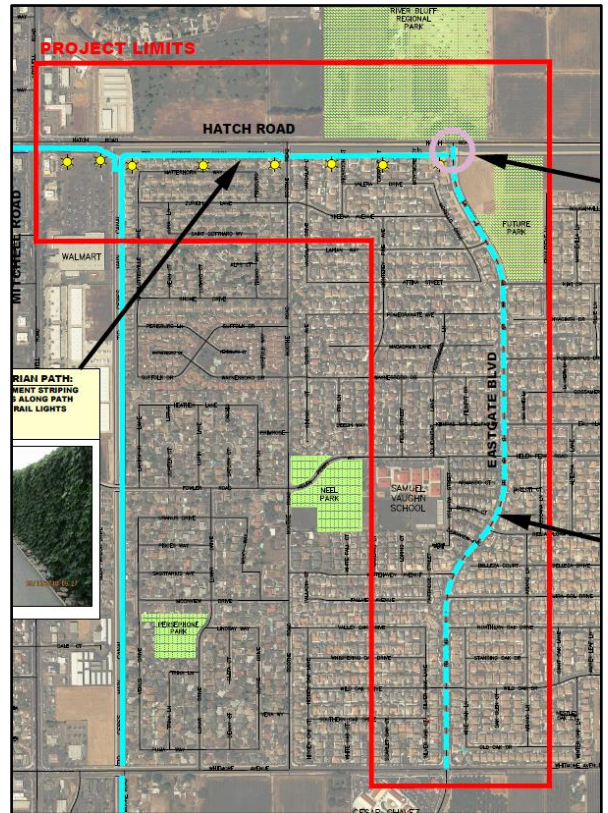

b. IF NO:

What are the reasons you, or someone you know do not use the bike and pedestrian path?

- 1) There is so much traffic that it is unpleasant to walk or bike..... Yes No
- 2) The speed of traffic concerns me..... Yes No
- 3) The path feels unsafe due to poor lighting Yes No
- 4) The path is unsafe due to obstructions, gaps, cracks, accessibility.... Yes No
- 5) Other reasons: _____

- D. The City is considering the below project to increase bike connectivity by adding bike lanes along Eastgate Blvd from Hatch Rd to Whitmore Ave. The project also improves safety along the existing multi-use path on Hatch Road.

**Eastgate Blvd Bike Connectivity
(Hatch Road to Whitmore Ave)**

Do you or someone you know, travel by bike or walk along this corridor? Yes (see a.) No (see b.)

a. IF YES:

Are these improvements beneficial to you (or them)? Yes No

If NO, what improvements would you suggest to improve the bike and pedestrian path?

b. IF NO:

What are the reasons you, or someone you know do not use the bike and pedestrian path?

- 1) There is so much traffic that it is unpleasant to walk or bike..... Yes No
- 2) The speed of traffic concerns me..... Yes No
- 3) The path feels unsafe due to poor lighting Yes No
- 4) The path is unsafe due to obstructions, gaps, cracks, accessibility..... Yes No
- 5) Other reasons: _____

Thank You!

Please drop off or mail your Surveys by July 8, 2018 to:

Engineering Services - 2220 Magnolia Street - Ceres, CA 95307
