PLUS EXCELLENT BENEFITS

Begin your engineering career with Ceres building upon your civil design engineering and drafting experience using AutoCAD, Civil 3D and other products and expertise/training. Ideally you have a strong interest in public works and other municipal projects with an eye for advancing your engineering career. Alternate work schedules are available in pursuit of a desired work/life balance as well as high potential for career growth and a generous lifetime pension after vesting.

Responsibilities may include:

- Prepare and design plans and specs for public works projects, including streets, storm drains and sewer lines
- Research project design requirements; perform calculations and prepare estimates of time and material costs
- Perform data collection and design for capital improvements
- Use CAD to perform moderate to difficult drafting work to prepare maps, plans deeds, exhibits, records, surveys
- Check improvement plans for compliance with master plan, design criteria, special conditions and City standards

Requirements:

- [Tech I] Two years of increasingly responsible engineering, surveying or drafting experience
- [Tech II] Two years of responsible municipal engineering experience equivalent to Tech I
- Some college level coursework in math, drafting, engineering, surveying or a related field
- Possession of a valid Driver License
